

TIAGO VILAS

SEEKING A 6-MONTH INTERNSHIP -
MECHANICAL ENGINEERING ASSISTANT

Profil

First-year Mechanical Engineering student at UTT, passionate about design and innovation. With an academic semester in Canada and acting as R&D Director for a medical robotics association (A2M), I am looking for a 6-month internship to apply my skills in design (CAD) and prototyping within your company.

Skills

Mechanical Design (CAD) :

CATIA, SolidWorks, Créo, Fusion, Inventor

Manufacturing & Prototyping :

Conventional machining (turning, milling), welding, 3D printing

IT & Programming :

Python, C, HTML, CSS, Microsoft Office

Languages :

French *Native*

English *C1 Linguaskill*

Italian *B1*

Other :

Driver's license & personal vehicle

BAFA (Youth Worker Certificate)

Judo black belt

Guitar

Education

University of Technology of Troyes

2024 - 2026

Mechanical Engineering Degree Program

Cégep Sherbrooke, Canada

Spring - 2026

Study Abroad Semester | Mechanical Engineering Technician

Lycée Niepce - Chalon sur Saône

2024

European General High School Diploma
(Mathematics/Physics) - Highest Honors

Engineering Projects

Co-founder, Vice-President & R&D Manager

A2M Association

2026

- CAD: Designed a polyarticulated prosthetic hand and its universal fixation system.
- Innovation: Researched Machine Learning integration for personalized control.
- Management: Managed the project budget and coordinated the team.

Mechanical Design Project

Aqualnnov, Canada

2026

- Client: Drummondville local canoe and kayak club
- CAD design and manufacturing of a kayak training simulator ("ergo trainer") featuring a mechanical balancer to replicate on-water movements.
- Award-winning project in a local competition: Technical presentation and prototype validation before a panel of engineers and entrepreneurs.

Professional Experience

Order Picker

2025 & 2026

Comptoirs des fers, 71100

- Hired on a temporary contract following the successful completion of my operator internship.

Camp Counselor

Été - 2023 & 2024

Beaune Côté Sud

- Organized and led activities for groups of children.
- Ensured safe supervision, managed logistical contingencies, and collaborated effectively in a team.
